

Sliding Fee Agreement

FCC strives to provide quality counseling regardless of socioeconomic status. The below fee schedule is to serve as a guideline for you and your counselor. However, if you have extenuating circumstances, further financial arrangements can be made with your counselor.

This agreement is between Family Concern Counseling and my counselor to confirm that I do not have insurance, high deductible, or I prefer to pay out of pocket for counseling services.

I hereby affirm the information selected below is correct and truthfully represents my combined family income and the number of persons within my household for which I am financially responsible.
